This drama is a love story based on the facts and truth, set in a church near the World Trade Center, about a firefighter who died in the line of duty in a rescue operation against terrorism and his bereaved family. The sorrow of losing a beloved family member and the truth that we have lived in different periods and countries as everlasting lives should be equally the same for people from any country. If we stand on such a point, sad incidents like terrorism will never happen. There are still wars and terrorism in various places around the world. We need to join hands and respect each other as a family living on the same Earth over the differences of race, culture, and religion, not to fight each other. It's precisely the future of the Earth we must choose. We would like to convey that through this drama.

About INAMORI Art Project Group

INAMORI Art Project Group (IAPG) was established by a woman, Noriko Inamori who had a progressive intractable disease. She decided to do the things she can do good for the world while living, and established an amateur art group IAPG. We have five units, Drama, Music, Dance, Japanese Taiko Drums, and Art Picture. And we are doing our activities striving for the peaceful world with no wars. Our standpoint is that we are all Earth Family members living on the same Earth, and all the existence on the Earth are precious over the racial, ethnic and religious differences.
